**PV Module Frame Evaluation (Stage 2 – Testing and Documentation)**

In order to validate the WILEY WEEB® washer compatibility with a specific module frame, a High Current Test may be required. As shown below, please email a Purchase Order to your local BURNDY sales rep and ship the requested module frame samples to initiate the project since prepayment is required before testing may begin. A Test Report will be provided and if acceptable results are obtained, an Application Note confirming compatibility will soon follow. Please fill out the info below and return.
